TAC200-1 Board

Board Material:	Black ABS
Size:	10.75"L (27.3cm) 6"W(15.2cm) 1.5"H(3.8cm)
Board material	Black ABS

TAC200-2 Underwater Compass

Compass Tilt	20°
Compass Card	3.2", Blk with Luminous Numerals
Luminous Properties	6 to 8 Hours
Size	4.2" (107.5cm) Dia 2.7" (69cm) H

Developed for professional dive teams, the TAC-200 Diver Swim Board is smaller and lighter than the original TAC-100 Diver Navigation Board. The TAC-200 is very accurate and easy to navigate using a easy to follow underwater compass. The larger dial on the compass makes navigating, easy even in the poorest visibility. Using the latest in luminous technology allows divers to operate in the dark for 6-8-hours.

depth gauge that tracks both diver's depth and bottom/leg time in one compact package. The second option is a analog depth gauges and dive chronometer. Both options offer effective solutions to accurate navigation during critical dive situations.

Two different options are offered for instrumentation on the TAC-200 Diver Swim Board. The DG100 is a rugged digital
