The MK-7 Buddy-Line is a compact, self-contained one or two-diver air intercom. It will allow clear communications in the 4-wire mode (round robin) and includes the Deluxe Headset (with boom mic).

The MK-7 Buddy-Line was specifically designed for Search & Rescue Teams to have an underwater communication device that needs little set-up time.

The two Watts of power is managed by state-of-the-art circuitry allowing relatively long life and great intelligibility.

MK-7 Buddy-Line operates on 8 AA Alkaline batteries. An optional rechargeable battery pack and charger is available. MK-7 Buddy-Line and our ComRope is a great package and will ensure a dive operation runs smoothly.

Specifications

- Battery life: 12 hours continuous use
- Frequency response: 600 to 10,000 Hz
- Output power: 2 Watt
- Charging time: 14 hours with optional rechargeable batteries
- Controls: Volume: Tender, Diver 1, Diver 2
